

Double Wall Hot Cups

Now
Available in
4 Sizes!

Stanpac manufactures 8oz, 12oz, 16oz and 20oz double wall hot cups. These are available in either plain white or custom Flexo printed designs or premium litho designs up to 6 colors. Both the base and the over wrap can be printed. Print quantities can be as low as 15,000 cups with a lead time of 6 weeks for printed cups from approved art. Plain cups are in stock and available for immediate delivery.

Stanpac double wall cups are 20% cooler to the touch compared to our single wall cups. In lab tests, the temperature of a liquid was 12% warmer in our double wall cups compared to single wall cups after 60 minutes.

For more than 70 years, Stanpac has been manufacturing packaging for companies located throughout the United States, Canada and many locations worldwide. We pride ourselves on an unmatched level of customer service, fair pricing, lead times that work for the customer, customized service for unique needs, reasonable minimum run quantities, and on time delivery.
